

The Best Compressors for Productivity... *and the Environment*

When you need the optimal solution for your gas compression application, look to Kobelco. We offer all types of compressors, so we can custom-engineer the best possible combination of reliability, efficiency, economy and environmental benefits. Whether you need the operating cost savings of a screw compressor, the large volume of a centrifugal compressor or the high efficiency of a reciprocating compressor – we're the ones to call.

Ask Kobelco! The Best Solution for Any Gas Compression.
