

# Get The Smallest Footprint

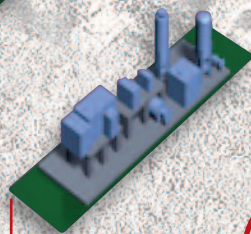

**of Any Flare or Vapor Gas Recovery Compressor for Onshore Refineries and Offshore FPSO/Platforms**

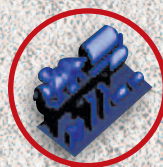

Reciprocating

Centrifugal

Conventional Screw

**Advanced Dry Screw**

***Kobelco advanced dry screw compressors provide superior benefits for Flare or Vapor Recovery service:***

- Smallest footprint from compact design
- Minimal initial cost
- Better efficiency
- No water injection required
- Less maintenance

Since they are dry (oil-free), Kobelco advanced dry screw compressors easily compress any gas and reliably operate without concerns about lube oil or water contamination. They help you meet the toughest environmental regulations worldwide – with minimum space and cost.

***Ask Kobelco! The Best Solution for Any Gas Compression.***
